

AHERA POLICY

The Asbestos Hazard Emergency Response Act of 1986 (AHERA) requires the Local Education Authority inform workers, building occupants or their legal guardians in writing about asbestos inspections, asbestos response actions, periodic reinspection and surveillance activities that are planned or in progress and the availability of asbestos management plans (whether asbestos is present or not) and where those plans are located.

All schools/buildings in Rangeley Lakes Regional School has been inspected for the presences of Asbestos-Containing Building Materials (ACBM's). The inspection did not detect any ACBM's at the school. The asbestos inspection report and documents are available for your inspection at Jeff LaRochelle, Director of Building Maintenance.
